VISITING THE SPA

HOW TO RECEIVE A MASSAGE

If you have not previously enjoyed a massage, you may not know what to expect. Below are some guidelines to put you at ease and assist you in receiving the maximum benefit from your massage.

- Take a warm shower and enjoy the spa facilities prior to your massage.
- Your body will be professionally draped at all times.
- Should there be any massage techniques you are uncomfortable with, please communicate it to your therapist.
- Advise your therapist about areas of your body that are injured, sore, or tense.
- Mention any medical conditions such as pregnancy, high blood pressure, heart problems, headaches, varicose veins or recent surgery to your therapist.
- If you are suffering from a cold, flu, or skin condition, please advise your therapist, as massages will often increase the health risk and discomfort brought about by these ailments.
- During your treatment, we invite you to close your eyes, focus on breathing slowly and deeply to maximize your relaxation.
