PEAK PURITY

Nature enthusiasts don't have to travel to Switzerland to enjoy its healing powers thanks to a new collaboration between Jacqueline Piotaz and **Spa Montage Deer Valley** at Montage Deer Valley (Park City, UT). The spa has added two treatments featuring the exclusive Swiss skincare line, Jacqueline Piotaz Switzerland. The Timeless Swiss Booster Treatment (\$175, 30 minutes; \$350, 90 minutes) relies on triple plant stem cell ingredients and PhytoCellTec, a biotechnology for cultivating plant stem cells. The facial improves skintone while penetrating with active ingredients that stimulate cell growth, protection, and renewal of the skin. Bio Detox & Anti-Stress Beauty Lifting Facial (\$245, 60 minutes) uses Advanced Cellpower Performance products to tighten, lift, and soothe stressed skin while simultaneously reducing fine lines. "Montage Deer Valley, one of the most prestigious resorts in the region, is the perfect place to launch my brand," says Piotaz. "Our common values of true luxury, excellent quality, high professionalism, and outstanding customer satisfaction will allow this partnership to grow and lead to results beyond imagination."
