VISITING THE SPA

HOW TO RECEIVE A MASSAGE

If you have not previously enjoyed a massage, you may not know what to expect. Below are some guidelines to put you at ease and assist you in receiving the maximum benefit from your massage.

- Take a warm shower and enjoy the spa facilities prior to your massage.
- Your body will be professionally draped at all times. Should there be any massage technique you are uncomfortable with, please communicate it to your therapist.
- Advise your therapist about areas of your body that are injured, sore or tense.
- Mention any medical conditions such as pregnancy, high blood pressure, heart problems, headaches, varicose veins or recent surgery to your therapist.
- If you are suffering from a cold, flu or skin condition, please advise your therapist, as massage will often increase the health risk and discomfort brought about by these ailments.
- During your treatment, we welcome you to close your eyes and allow yourself to relax as completely as possible. Focus your attention on breathing slowly and deeply.
